

Dear Colleagues,

During the current crisis, here at BVA we are looking to provide a central point to promote the work of support groups and also those volunteering initiatives currently taking place within our borough. We want to help promote these activities using our established social media channels and network of local contacts.

With our experience in coordinating volunteers and local groups, through our running of “Volunteer North Hampshire”, we also have access both to people looking for volunteer roles and to contacts throughout the local voluntary sector. We would like to extend assistance to ad-hoc support groups that have formed in response to the current situation.

If you know of any support initiatives that are currently running or are planned, that would need help in getting known around the community, or are looking for additional volunteers or resources, please click the following: [Groups Link](#)

If you have any enquiries, please contact BVA: crisis@bvaction.org.uk or call 01256 423 852
