

Dear Friends,

I hope you are well.

SVS is currently working closely with Southampton City Council (SCC) and Southampton City NHS Clinical Commissioning Group (CCG) to coordinate a voluntary, community and social enterprise (VCSE) sector response to the current COVID-19 pandemic.

We recognise there is a lot of spontaneous localised activity that has sprung up in response to coronavirus and we are keen to ensure groups get the support and guidance they need, and are able to work collaboratively with other local organisations in order to ensure safe practice for vulnerable people and volunteers themselves.

Please follow the link below to a survey that will help us to get a full picture of the voluntary action taking place in the city, what further offers of help are out there, and what support we can offer to help you.

Together we can make a real difference.

Best wishes,
Rob Kurn,
Deputy CEO.
